

UnioTech
S O L U T I O N S

The #1 Secure I.T. Relocation & Special Projects Company

DONE-FOR-YOU TECH MOVES

FAST

Nascar drivers have a Pit Crew, you have us - specialists who work quickly and precisely. We know exactly what to do and when to do it.

FULL SERVICE

We offer a complete range of I.T. relocation and special project services including a complete solution for closing an office or establishing operations in a new one.

METICULOUS

Our great attention to detail shows in our work. Picture perfect desk cables, clean workspaces and everything you didn't know you wanted.

NUMBER ONE FOR A REASON

SECURED, SCREENED, WORTHY OF YOUR TRUST

Our staff are screened, security checked, Red Cross trained, WSIB compliant, insured & uniformed. We do what we can to leave you feeling safe and knowing you've trusted the right team.

"A PLEASURE TO WORK WITH..."

That's not our slogan, that's what our clients say. Unio Tech Solutions has more 5-star Google reviews than any other company in our industry.

WHAT YOU CAN COUNT ON

Our tech teams arrive early and work to meet your deadline. Expect tidy cables, clean work areas and inspected equipment that is turned on. We prevent problems, handle surprises and deliver peace of mind.

“Unio Tech Solutions is a professional technology consultancy and project delivery company. From the initial proposal to delivery and after project care, the service... is outstanding, efficient and always in the best interest of the client... They have completed a number of single and multi-phase projects with us from 50 – 4,500 people. I highly recommend them.”

Karen McGee

Relocation Manager, CBRE Limited

I.T. RELOCATION SERVICES

DISCONNECT/RECONNECT SERVICE FOR I.T. EQUIPMENT

We disconnect and pack I.T. such as computers, monitors, monitor arms, keyboards, mice, phones and docking stations. We reconnect, set-up your devices, turn them on and ensure you are ready to work at your new location.

NEXT BUSINESS DAY FINE-TUNE SERVICE

Once you've moved and your staff are in their new workstations we can be onsite to make your transition to the new office even smoother. We can make small adjustments to hardware placement, perform equipment swaps and provide any other support your I.T. department needs.

OFFICE CLOSING SERVICES

DECOMMISSIONING

When you close an office or service location, you need one trusted point of contact for the entire project. We are your one-stop decommission shop. Hire us to ensure you pay a fair price, reduce your risk and get the protection of our Ready on Time Guarantee™.

- HVAC and electrical
- Phone and data cabling (walls, ceiling & furniture)
- Server rooms
- Garbage and junk
- Furniture decom

NEW TECHNOLOGY INSTALL SERVICES

MONITOR & CABLE TRAY INSTALLATIONS

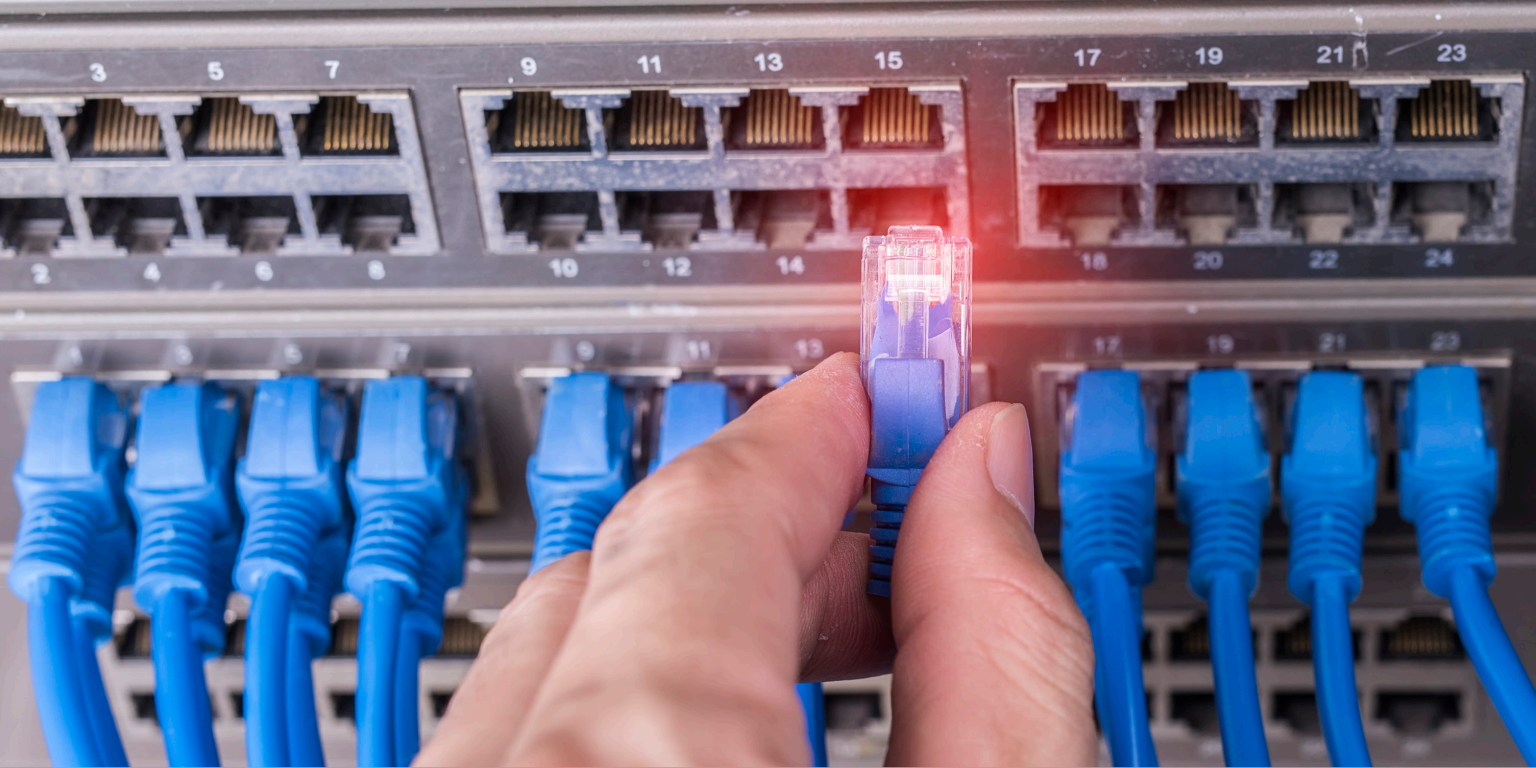

We install monitors and cable trays onto workstations so you can clear the space for staff to work more efficiently. This is a high-demand service and Unio Tech Solutions installs thousands of monitors sometimes for a single corporate client.

NEW HARDWARE DEPLOYMENTS & SPECIAL PROJECTS

We take the stress out of new equipment set-up by doing it for you from start to finish. Our tech teams routinely install new telephones, monitors, monitor arms, laptops, keyboards – whatever you need. We also do special projects like meeting room setups, running laptop scripts and I.T. lab cleanups.

Unio Tech Solutions knows how important it is for your move or special project to be ready on time. We guarantee to bring the correct crew size to get the job done by your deadline with great care and impeccable attention to detail. If there is a workstation that we failed to inspect, that workstation is free.

SERVER ROOM & CABLING SERVICES

SERVER ROOM & DATA CENTRE MOVES

Your server is often the most business-critical technology you have and it is especially vulnerable to damage during a move. We keep it safe with careful and organized un-racking and re-racking.

CABLING & NETWORKING SERVICES

Networking and data cabling are vitally important to the capacity and speed of your business. Our data drops are done cleanly and in sufficient quantity to meet your current and ongoing needs. We routinely fix the work of other installers so it is cheaper for you to call us first.

RECYCLING & CLEANING SERVICES

ELECTRONIC RECYCLING & SECURE HARD DRIVE SHERIDDING

Old technology consumes 20% of office space and costs you to move it. Regain floor space and save on moving costs by having us securely, safely and responsibly remove obsolete technology. This includes hard drive shredding, serial number tracking and certificates of destruction.

I.T. EQUIPMENT CLEANING & SANITIZING SERVICES

Unio Tech Solutions uses non-abrasive cleaners and a proprietary process to keep your staff safe from germs and viruses without discolouring or altering the appearance and functionality of your technology. This is easy to add to a disconnect/reconnect service but can also be done on a regular basis.

"Over the last year, I have had the privilege of working with Jason and the Unio Tech crew on a large multiphase project consisting of disconnecting/reconnecting more than 2800 computers, monitors and peripherals. Unio Tech never failed to deliver every single weekend/evening, always on time, always professional and always outgoing, making the job enjoyable. Unio Tech delivered every time, they were more picky than I am and that's impressive!"

Heidi Stewart
Move Manager, BGIS
